## ABOUT ME

Capable of multi-tasking in high stress, fast paced work environment while maintaining the integrity and accuracy demand of profession. A person that will increase overall productivity by implementing process that will improve workflow and reduce error. Although my past experiences are more towards Retail oriented profession, but that doesn't limit me to leap into ever expanding IT industry.

## EXPERIENCE

### Full-Stack Software Engineer 2023 - (Present)

- Certified Full-Stack Software Engineer through Udemey.
- Experienced in developing static & responsive Website and WebApp.
- Preferred using React frameworks as it's a great selection in giving an awesome cohesion between front-end and back-end.
- Bootstrap is among one of my front-end beautifying frameworks.
